### **3RD ASIAN AND OCEANIAN CONGRESS OF NEURORADIOLOGY AND HEAD & NECK RADIOLOGY**

**Adelaide Convention Centre**

**Friday 18th June - Monday 21st June 1999**

## **PROGRAMME**

HOSTED BY THE AUSTRALIAN & NEW ZEALAND SOCIETY OF NEURORADIOLOGY

## WELCOME

On behalf of the Organising Committee, I would like to welcome you to Adelaide and to this, the 3<sup>rd</sup> Asian and Oceanian Congress of Neuroradiology and Head and Neck Radiology. The Asian and Oceanian Society of Neuroradiology and Head and Neck Radiology was only established recently with the first meeting and Congress being held in 1994 during the 15<sup>th</sup> Symposium Neuroradiologicum in Kumamoto, Japan. Therefore this Congress will be important in further strengthening the ties between radiologists in our region.

There is significant cultural and economic diversity within the Asian and Oceanian region and therefore the practice of radiology and hence academic needs of radiologists may vary from country to country.

For this reason the Organising Committee of the 3<sup>rd</sup> AOCNHNR has attempted to provide a scientific lecture programme which would be of interest to the majority of registrants. At the same time, with the availability of a number of substantial prizes and fellowships, registrants have been encouraged to present original scientific research in the form of scientific exhibits [posters] and the number submitted for display has been very encouraging.

As Chair of the Organising Committee, I am sure that the ambience of our beautiful city of Adelaide together with the informal social programme will enable us all to reconfirm old friendships and make new ones.

Professor Michael Sage  
Chairman, 3<sup>rd</sup> AOCNHNR
